

## Introducing the new F38 LOCK SN

FLUXX® Degassing Inserts

Dear Sir or Madam,

We have expanded our portfolio of FLUXX® Degassing Inserts with the introduction of the F38 LOCK **SN**.

Beside the existing articles with long neck, the new product contains a **Short Neck** including a catch (LOCK) which provides a strengthened connection with the designated cradle of the closure.

Like every FLUXX® Degassing Insert from SABEU, the F38 LOCK SN includes a hydrophobic and oleophobic ePTFE membrane as well.

For further information, we are looking forward to get in contact with you.

Best regards

**Kevin Eckert**

Sales & Project Manager Packaging

**Order information:**

Item number:  
924 036  
  
Minimum order quantity:  
1 carton  
  
Quantity per carton:  
2,000 pieces

### Benefits

-  Continuous pressure compensation – prevent containers from swelling and collapsing
-  Reliable protection against leaks
-  Easy to install
-  Resistance to a multitude of chemicals
-  Fit for human consumption under the food law
-  Excellent performance – e.g. airflow, water entry pressure (WEP) and oleophobicity

### Applications

**Closures for bottles, canisters, drums and IBC's regarding packaging of especially:**

-  Liquid food
-  Hygiene and care products
-  Cleaners
-  Agrochemicals
-  Industrial chemicals and hazardous materials
